CLASSIFICATION OF SERVICE  
PRIVATE WATER CONNECTION FOR FIRE PROTECTION

AVAILABILITY:

Private Water Connections for Fire Protection are available to Customers who are located on distribution mains of the Company suitable and adequate for supplying the service requested in the territory served by the Company.

CHARACTER OF SERVICE:

Service under this rate shall consist of stand-by service for fire emergencies. All water taken through such connection shall be restricted to fire emergencies only. The Company reserves the right to install either a meter or flow detector from time to time to ensure that the service is restricted to fire fighting purposes. If the Company elects to install a meter or flow detector, the customer shall provide in a suitable location flange connections in the customer's service header, and a suitable vault for the meter or flow detector.

MONTHLY RATE per connection (Flat Rate, Not Metered):
